## golfer's paradise

**Breathtaking views** of the renowned Pelican Golf Course in a perfect coastal setting is undeniably the best feature of this new spacious and sensuous master bath retreat. Both homeowners, who are avid and award winning golf players, wanted a view that captured this beautiful golf course. The architect, John McInnes, ingeniously built the house to wrap around this view so that it

could be enjoyed from any angle.

Suiting the homeowners' need for maximum convenience to meet their busy lifestyle, separate his and her bathing areas were incorporated into the design, with a magnificent shower uniting both areas.

Furniture grade cabinetry with dramatic lines framing the shower and tub surround help to form a dynamic, functional and beautiful plan. These cabinets feature radius concave doors in cream white with a polyester semi-gloss silky smooth finish. Touch latches on the doors were used instead of knobs to provide uninterrupted curves.

These luxurious materials and state-of-the-art plumbing fixtures combine to reflect a true golfer's paradise...from any angle. ♦
